

5-04 Yom Kippur (10 Jan 96)

- 1) The Egyptian Bridges cannot be set up emplaced unless the scenario specifically calls for them to be set up that way. In other words, the campaign scenarios never begin with the Egyptian Engineers already on their Bridge sides.
- 2) Reshef Arm A should not appear as a reinforcement in scenario 4.4—it begins play on the map.
- 3) The Israeli Hawk Bn **cannot** be airmobiled.
