

Black Wednesday (TCS #7) update for 4.0 rules

1.12 Assault benefits. Such units receive +1 shift to their Area Fire and a -1 Morale modifier in Assault and Overrun combat. Should one side have such units and the other not, the side with such units receives a +1 modifier in their favor to the Assault Combat Table.

2.2c Consolidation (clarification). Units lost because of consolidation do NOT count towards Battalion Morale.

2.4a Prep fires fire with DOUBLE the firepower as listed. Such missions are always Continuous Fire missions.

2.4g Katyusha fire is doubled to a Firepower of 12 as per normal TCS 4.0 rules

2.5 Company sized units count as a full unit lost, just like an Inf Pl, when counting Battalion Morale.

3.1d Dug In Reserves. Such units that are dug-in must be in Fire Mode. Once they enter Move Mode they lose their Dug In status.

The Izhora River is considered Billiard Terrain for Overwatch purposes.
